

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Robert Lopotko  
DOCKET NO.: 03-22373.001-R-1  
PARCEL NO.: 03-29-106-064-0000

The parties of record before the Property Tax Appeal Board are Robert Lopotko, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 20-year old, two-story frame dwelling containing 2,183 square feet of living area with a full, unfinished basement, central air conditioning, a fireplace, and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, three comparables are located one to four blocks from the subject, and one is located approximately one mile from the subject. The comparables are two-story frame dwellings that are eight to 40 years old. Three of the comparables have unfinished basements, and one has a partial basement. Two comparables have central air conditioning, and three have fireplaces. Information on garages was not disclosed, but photographs supplied by the appellant indicate that each comparable has a garage. The comparables contain 2,428 or 2,652 square feet of living area and have improvement assessments ranging from \$11.29 to \$12.11 per square foot. The subject property has an improvement assessment of \$13.82 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	4,400
IMPR.:	\$	30,177
TOTAL:	\$	34,577

Subject only to the State multiplier as applicable.

property characteristic sheets and a spreadsheet detailing two suggested comparable properties that are located on the same block or one block from the subject. The comparable properties consist of two-story frame or frame and masonry dwellings that are seven or 27 years old. One comparable has a full, unfinished basement, and the other has a full, finished basement. Each comparable has two fireplaces, central air conditioning, and a two-car garage. The dwellings contain 2,172 and 2,354 square feet of living area and have improvement assessments of \$16.72 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of six equity comparables. The appellant's comparable one differed significantly in location and received reduced weight in the Board's analysis. The appellant's comparables two, three, and four and the board of review's comparable one differed significantly in age and also received reduced weight. The board of review's comparable two was the most similar to the subject property in location, age, and most physical characteristics. This comparable had an improvement assessment of \$16.72 per square foot and supports the subject's improvement assessment of \$13.82 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable property contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
